

EFRA GP in Oberwobling (A)

The temperature was super hot in Oberwobling for the EFRA GP held last weekend. Novarossi international team attended this race to prepare for the next Euro. The track was super fast with two straights and tarmac banking which made the drivers crazy! The layout goes up and down and the dirt was so hard that all drivers were trying to lower side traction. Novarossi's Aigoïn, Drake and Vray bumped up in the A-main with Drake making only one pit stop in the 20 minutes semi final. Unlucky Ricardo Perrin lost his bump up spot in a crash on the last corner. The A-main was super fast with Savoya, Drake and Aigoïn fighting for the leading. Savoya and Aigoïn were a little bit faster and fought for the whole race, but Yannick's Nova Plus 4 let him drive an easy 10 minutes run and with Yannick saving a pit stop it gave him a safety margin he needed to keep till the end of the race. At the end of the race, Vray succeeded to overtake former Euro champ Robert Batlles. The whole team was using the Nova Plus 4 with short rounded manifold and 9901 superstrong pipe and most of the team drivers were using 6mm restrictors with 6TGC plugs.
